Broulaye Doumbia

Software Engineer

✉ broulaye@vt.edu   ☎ 1-571-490-2091   📍 14201 Jeannette Rankin rd, Manor, TX, 78653

CAREER OBJECTIVE

Results-oriented professional with 3+ years of experience and a proven knowledge of web platform and application development. Aiming to leverage my skills to successfully fill the Software Engineering role at Wave.

EXPERIENCE

Software Developer

IBM, Austin, TX / Jan 2018 - Present

- Worked as part of IBM Data and AI division, developing UI/UX for Watson Discovery, Watson Compare and Comply, and related services.
- Used JavaScript, React, CSS and Carbon Design System to implement clean, consistent UI
- Utilized Typescript to update existing code-bases for better reliability and code quality
- Perform web site tests according to planned schedules, or after any web site or product revisions.
- Maintain understanding of current web technologies or programming practices through continuing education, reading, or participation in professional conferences, workshops, or groups.
- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.
- Worked in agile/scrum type environment, consistently iterating on company offerings
- Peer-reviewed code contribution from the team to help maintain strong code quality
